EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Judith Toffenetti, the representative of the instant application on August 2, 2006.

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment, which places this application in condition for allowance. During a telephone conversation conducted on 8/4/2006, the applicants requested an extension of time for an additional 1 MONTH(S) i.e. 2 months total and authorized the Director to charge Deposit Account No. 500417 the required fee of \$165.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

EXAMINER'S AMENDMENT

In claim 1, replace "a" with "the " after "encoding" in line 1.

In claim 5, replace "a" with "the " after "encoding" in line 1.

In claim 6, replace "a" with "the " after "encoding" in line 2.

In claim 6, replace "A host cell" with "An isolated host cell" in line 1.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The applicant has claimed an isolated nucleic acid sequence of SEQ ID NO: 2, encoding a polypeptide of SEQ ID NO: 1, a vector comprising said nucleic acid molecule, host cell comprises said vector and the transformed host cell is E. coli. The prior art does not teach SEQ ID NO: 1 and 2. Thus, Applicant's arguments and amendments to the above claim are sufficient to overcome the rejections of record. A standard search did not produce any prior art that suggests or teaches the claimed invention. The claimed invention is novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1, 3 and 5-7 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
